

Student and Guest Directions

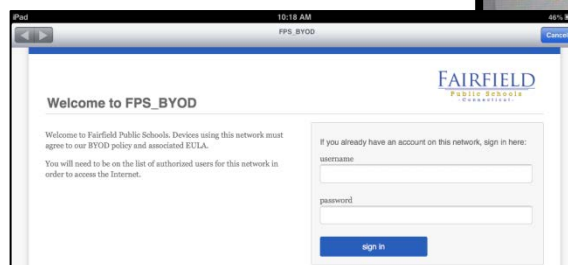

How to Connect to TMS Wi-Fi

There are three new Wi-Fi network connections for our building use. Please note that IT can monitor Internet use on ALL 3 networks. Passwords are case sensitive:

1. **FPS_BYOD** - Intended for **STUDENT** access using their own personal devices
 - Password = **FPSstudentWIFI**
2. **FPS_Guest** - Intended for **EMPLOYEE and GUEST** access using their own personal devices
 - Password = **Guest0413**
3. **FPS_Wifi** - A full speed network intended for all of our **school owned** wireless computers, laptops, and tablets (**not for student or staff devices**)

Here's how STUDENTS connect with your personal device:

1. Go to the **Settings** menu on your device and open the **Wi-Fi settings** menu
2. Look Under the **Choose a Network** settings
3. **Laptops and Tablets:** select **FPS_BYOD**
 - a. When prompted, enter the BYOD password :
FPSstudentWIFI
 - b. Select **Join**
 - c. Enter **your** FPS username and password to logon to our network to access your H drive, etc

4. **eReaders:** select **FPS_Guest**
 - a. When prompted, enter the guest password :
Guest0413
 - b. Select **Join**
 - c. The Guest Network doesn't use AD authentication (you won't need to enter your FPS username and password). Instead you will get a click through page
